25 YEAR RE-REVIEW

SECRET, 25X1 In Deutsch Wagram military post, on 28 August and again on 3 September, 25 to 30 trucks, tank trucks, van-like trucks and 1 truck with a hoisting gear were observed in the motor vehicle parking lot. Tank trucks on the car washing 25X1 were platform outside the installation. The quartering building No 28 on Bahnhof Strasse was alternately guarded by sentries wearing red-bordered black and black-bordered blue epaulets. The building was frequented by air force officers and EM wearing red-bordered black epaulets. Truck 25X1 and jeep were parked in front of the building. Five motor vehicles were parked in the yard of building No 19 on Bahnhof Strasse which was guarded by air force sentries. Sedan entered 25X1 the yard. The building near the school was also guarded by an air force sentry. In the garden of this building was a radio truck with a rod antenna and a van-like truck, the latter with a line leading to the building. Truck there. In front of building No 10 on Gaensern-25X1 dorfer Strasse, boxes with canned food were being unloaded from trucks , The building No 25 on Haupt Strasse was entered by 23 air force officers at mealtimes. At 1 p.m. on 3 September, a truck convoy with about 40 air force soldiers with their baggage proceeded through Deutsch Wagram en-route toward Vienna. 25X1 Comment. Deutsch Wagram airfield is still occupied by a Soviet fighter regiment. The Pe-2s have apparently not been used since the transfer of the bomber units in April 1953. It is assumed that the Pe-2 type aircraft are being withdrawn from service and stripped. 2. Comment. For layout sketch of Strasshof military post. see Annex. 25X1
